NOTE.

By vote of the Trustees, this catalogue is henceforth to be published once in five years. The year 1895 has been selected for the initial number of the new series, in order to make the successive issue appear in the years ending with 5 or 0. The next number, therefore, may be expected in 1900.

Inquiries preliminary to the publication of the present issue were begun in November, 1894, and the work has been pushed forward as rapidly as the pressure of other duties would permit. The earlier pages were printed June 1, 1895. Changes subsequent to that date have been inserted when possible. Information has been obtained, as far as possible, from the graduates themselves, but when this method has failed inquiry has been made of friends and classmates. To the great number of friends who have thus assisted in making this record more complete, the thanks of the Editor are hereby rendered.

Where more than three thousand different addresses are involved, it would be strange if many mistakes were not made. Corrections and additional information will be gratefully received. It is the Editor's belief that the number of errors is less than in former editions. In no small degree this is due to the skill and efficiency of Mr. Luther D. Harkness, who has largely assisted in the preparation of the copy and in carrying the book through the press.

In conclusion, the Editor desires to emphasize again the statement that the labor of compiling this catalogue would be greatly reduced if each graduate would promptly inform him of any change in address. This would insure the regular receipt of all college publications, and would keep the college mailing list always correct. Notice of such change should be sent to the Editor of this catalogue.
